

I chose Gundersen Lutheran... to help complete our family

“When my husband and I were ready to start a family, we were anxious to get pregnant. After month after month went by with no success, we called Gundersen Lutheran.

Tests showed that I would most likely have trouble getting pregnant without help, so we turned to the Gundersen Lutheran Fertility Center. They were there to lift our spirits when we got disappointing news, and share in our joy when we got pregnant...finally. I felt the fertility team’s care and compassion for all three of my pregnancies.

The experience I had in the Fertility Center didn’t stop there. No matter where I go for care for my family, whether it’s Pediatrics or Internal Medicine, the people are knowledgeable and compassionate.

Gundersen Lutheran is different from anywhere else you go. Having those people you can fall back on and trust to care for your entire family is priceless.”

–Heather Young, three fertility successes
